Title

Matthew Mould [1, *] and friends

[1] *Nottingham Centre of Gravity & School of Mathematical Sciences, University of Nottingham, University Park, Nottingham, NG7 2RD, United Kingdom*

(Dated: July 24, 2026)

This is the abstract.

I. INTRODUCTION

This is the introduction.

ACKNOWLEDGMENTS

MM: We thank friends for discussions. M.M. is supported by a Research Fellowship from the Royal Commission for the Exhibition of 1851. The authors are grateful for computational resources provided by the LIGO Laboratory and supported by National Science Foundation Grants PHY-0757058 and PHY-0823459, and the University of Nottingham's Ada HPC service. This research has made use of data or software obtained from the Gravitational Wave Open Science Center (gwosc.org), a service of the LIGO Scientific Collaboration, the Virgo Collaboration, and KAGRA, and is based upon work supported by NSF's LIGO Laboratory, which is a major facility fully funded by the National Science Foundation.
